

New Product Release

HDM-808 Data / Patch Module

The Hills Home Hub HDM-808 Data / Patch Panel Module provides network interface for local area network applications such as home computer networks and ADSL services, and supports Category 5e performance.

This module provides eight 4-pair 110/IDC connectors, and each of them connects to an individual RJ-45 jack for patching to the Hills Home Hub **HES-108** Ethernet Switch.

Available from July 1st 2004.

FS2119 HDM-808 Data/Patch Module

Replaces HI3102 Patch Panel HWN – 6 ports

NB. Stocks of HI3102 can be consigned to 401 to fill existing backorders
