of discounted GSM access from Ness.

Full time GSM monitoring – No landline required!

106-097

GSM Dialler only

106-096

GSM Dialler inc
Ness SIM Card

Both models include Power Supply, Internal
Backup Battery, External Antenna with 5m Cable

The Ness GSM Dialler provides a full time GSM pathway for alarm diallers to communicate in the absence of a land line.

Ideal for “Naked phone line” households, remote locations and anywhere you need easy and reliable dialler monitoring via GSM.

- Plug-and-go operation - no programming required.
- Antenna with magnetic base supplied - long cable allows the unit to be installed in a secure housing.
- Backlit LCD display shows system status and call progress.
- Available with Ness SIM card or BYO SIM.
- Plug pack powered with onboard battery backup.
